

Dear Rosemary Spitzer,

HR Initiative National Call in Day!

On June 10th, SHRM and the HR Initiative for a Legal Workforce will host a National Call in Day in support of H.R. 5515, "The New Employee Verification Act" (NEVA).

NEVA is a bipartisan piece of legislation that provides a comprehensive approach to electronic employment verification. This legislation would help prevent unauthorized employment, protect employees' identities and preserve Social Security. The HR Initiative strongly supports NEVA as a suitable replacement to the current employee verification system used by the Federal government.

Congress is expected to consider this legislation later this year, as the current electronic verification called 'E-Verify' is set to expire in November. Now is the time for HR professionals to advocate for a new and more comprehensive system that works!

Call your Member of Congress to urge him or her to co-sponsor NEVA! You can do so by dialing **1-866-605-7500** and requesting the office of your Member of Congress.

If you are not sure of your Member of Congress, visit the U.S. House of Representatives' website by clicking [HERE](#) and entering your home zip code to find the identity of your Representative.
